

## Keywords index

Arc voltage	196	Methodology of research	196
Creep	142	Microstructure	154
Cu-WC micro-composite	171	Microstructure Properties and Testing of welded joints	115
Dispersion hardening	171	Nanostructure	171
Drop transfer modes	196	Properties	179, 188
Duplex steel	115	Recrystallization	154
Fracture characteristics	179	Steel T23	142
Fracture mechanics	162	Structure	142
Heat treatment	162, 203	Structure stability	171
Hot deformation	154	Tensile test at elevated temperatures	179
Image analysis	142	Warm hydroforming	188
Magnesium alloys	179, 203	Welding	115, 196
Manufacturing and processing	203	Working properties of materials and products	188
Materials	115-171	ZM21 magnesium alloy	188
Mechanical properties	162, 171, 179, 188, 203		
Metallic alloys	154, 162
