At the turn of November-December 2009 in the framework of the INFO Nano project three events took place in Białka Tatrzańska in beautiful Tatra mountains:

1. One of them was the 1st Conference on Materials, Computer Science and Nanotechnology KOMIN during which Prof. Leszek A. Dobrzyński presented aims and tasks of the project and some goals and curricula of Applied Computer Science with Computational Materials Science, Nanotechnology and Materials Processes Technologies.

2. Assumptions of curricula and plans of Materials Engineering

3. Dr Marek Kremzer presented assumptions of the preorientation action of the INFONANO project among students of the secondary schools.

4. Ms Marta Górniak, MSc - assumptions of the INFONANO Project promotion with a use of methods of distance learning.

5. Mr Marian Jenniewicz - information of the activities concerning the Project which take place so far.

6. Prof. Stanisław Motera

7. The second event was the panel discussion of the members of the Monitoring Committee of INFONANO project in which took part actively among others: Prof. Marian Jenniewicz.
The third event was the 1st Methodological Symposium for PhD students SYMED during which PhD students of the INFONANO project presented their presentations. Among others: Mr. Marcin Busko, MSc, Ms. Iwona Czaja, MSc, Mr. Andrzej Hudecki, MSc, Ms. Malgorzata Kaluza, MSc, Ms. Anna Mucha, MSc, Mr. Krzysztof Romanczuk, MSc.
