

## Keywords index

Aluminium alloy	22	Industrial management and organization	39
Analysis and modelling	7		
Bayesian Belief Network (BBN)	7	Manufacturing and processing	30
Composite materials	22	Materials	14-22
CVD aluminizing	30	Metallic alloys	14
Diffusion coatings	30	Microstructure	14
Failure Mode and Effect Analysis (FMEA)	7	Mn-Al steels	14
Gleeble	14	Model of safety and health management system	39
Heat treatment	30	Plastic deformation	14
Improvement the safety 39 PN-N-18001 standard	39	Powder metallurgy	22
		Process reliability	7
		Protective coatings	30
		Safety and health management	39
		Superalloys	30
