Cover story

The Opening Ceremony of the 18th International Scientific Conferences on Achievements in Mechanical and Materials Engineering AMME'2010, which will take place as usual in one of the important and also this time unusual historical interiors having a great historical importance and the material development of Poland will be as usual a special event. This time it was decided that it

will be the Warszawa and Haluszka Chambers of the Wieliczka Salt Mine in Wieliczka close to Cracow. The AMME'2010 Conference will take place in the Conference Rooms of the Mercure Kasprowy Hotel in Zakopane in the period of 13th-16th June 2010. Zakopane, a winter capital of Poland, also very beautiful in summer time, plays a special role for the WAMME Academy. The WAMME Academy was established here and the meetings of the General Assembly of the WAMME Academy and AMME and CAM²S Conferences have taken place here already for several times.

Zakopane is also lovely in the first days of spring, when nature after a long winter, comes to life. If you are lucky to hold on beauty of the mountains in the rays of spring sun, then of course you have sustained a number of positive emotions. This year it was difficult to find such a day. In spite of the current year long-lasting rainfall in the mountains in the south of Polish, at the turn of April and May which led to the tragic flood in the whole country and has brought enormous misery and material damage, it was successful. On the cover a spring view of the Giewont, proudly spread from the north above Zakopane can be seen. A legend says that the sleeping knight who guards against evil forces of Zakopane. In the background Kasprowy Mountain, occupied by downhill skiers all winters is seen. Despite the spring at the top a lot of snow remained, which probably can melt until late June or July, to cover the Tatra peaks with a new one at the turn of August and September. On the small pictures the crocuses seen at spring mountainous hall, one of the buildings in Zakopane, built in the Zakopane style and the view from the summit of Gubalowka on Zakopane at the background of the Polish Tatra mountains can be seen.
